

Rockefeller's Rules

The Marvelous Mechanics of Money (M3) is a principle-based financial system that teaches families and individuals how to live John D. Rockefeller's five simple rules. Often when rules are mentioned someone recites the popular quote; "He who has the gold (money) makes the rules!" If this has any basis of truth, it is all the more reason to follow John D. Rockefeller's rules for living a successful life. These rules will help anyone to acquire and sustain true wealth, and find a Better Way to Live.

Rule #1 – Work hard to earn an honest days pay!

Rule #2 - Give at least 10% of your increase to a charitable cause.

Rule #3 - Save at least 10% of everything you earn - pay yourself first!

Rule #4 - Live on the rest - live on a budget, not on your income!

Rule #5 - Account for every penny - record every financial transaction.

By adopting and living these five basic, yet very simple rules, you can become debt free, significantly improve your net worth, and attain true happiness - regardless of how much money you make!

The (M3) Way and The Marvelous Mechanics of Money System can provide you with the tools and the assistance to adopt and live these five basic rules. If you believe in yourself and follow these simple rules, you can achieve financial self-reliance!
